

Volunteer With Rebuilding Together NYC!

- Are you an **Occupational Therapist** or a **student** of Occupational Therapy?
- Do you want to give back to your community AND sharpen your OT skills at the same time?
- Join Rebuilding Together NYC on one of our home visits throughout the five boroughs!

Rebuilding Together NYC is a safe and healthy housing organization dedicated to the preservation of affordable housing for low-income residents of New York City. Through our Accessibility Upgrades Program, we provide free modifications for low-income persons with physical or age-related disabilities. These modifications include, but are not limited to, wheelchair ramps and lifts, roll-in showers, and kitchen modifications.

Rebuilding Together NYC needs help from Occupational Therapists like YOU! Please join a member of our staff on a 30-minute site visit, and provide us with a written home assessment. With your help and expertise, Rebuilding Together NYC can effectively address the most urgent modifications that residents need to safely age in place.

Please call (718) 488-8840 or e-mail info@rebuildingtogethernyc.org for more information.
