Volunteer Spotlight: Deutsche Bank and LISC

On May 24th and 25th volunteers from Deutsche Bank and LISC partnered up to renovate a community garden in the South Bronx. On the first day, volunteers from LISC landscaped, built raised flower beds, and brought in loads of fresh soil and gravel. On day two, Deutsche Bank painted, planted flowers, and finished laying a concrete slab to keep rats out of a greenhouse. Both groups were fantastic and worked hard until the very last minute! We look forward to working with them again

soon!

Project Spotlight: Dyckman Senior Center

Located in Inwood, Manhattan, the Dyckman Senior Center has been serving the community since 1968. The center provides an opportunity for seniors to meet with friends, participate in various recreational activities, and eat nutritionally-balanced meals. Though the center has provided a wonderful place for seniors to gather and socialize, it was in need of a new paint job and landscaping services. With the generous support of Charter Communications, Rebuilding Together NYC was able to renovate the space to create a brighter, more colorful environment and distribute nearly 275 [Safe and Healthy Home Kits](#) to members and local residents.
